

Press Release from HKS Dreh-Antriebe GmbH

bauma 2016 – successful ever since!

Munich (Germany), April 17th 2016 - From 11 to 17 April 2016 the HKS Dreh-Antriebe GmbH presented in the hall and on the outdoor area at bauma - the 31st International Trade Fair - its latest products and innovations.

bauma 2016 was a successful show for HKS. With this year's appearance HKS showed its high quality and technological diversity to a large, international audience. There were interesting discussions with numerous customers and partners from different countries and there were also some new projects discussed in this course.

New products of HKS

More than 54 versions in 18 sizes up to 100t weight HKS provides as product portfolio in the pivoting segment. XtraTilt - as the pivot actuator by HKS is called - has been exhibited in several sizes at bauma, even with different attachments to show the customer the variety.

The TiltRotator of HKS was demonstrated on a Terex of 11t class based on live demonstrations and here it was shown how versatile and effective this can be used in many different applications. The different requirements could be understood from the two excavator classes that can be used for gardening / landscaping on one side or the road works on the other side. The new RotoBox was refined and shown with all advantages live on a Komatsu mini excavator.

Exciting presentations on the stand

From April 11th to 17th customers and visitors had the daily opportunity to learn about the products of HKS Construction Technology and its benefits. Every two hours the TiltRotator and RotoBox was presented in the live demonstration and Nicky Kailing presented the new features in detail.

The grand finale of this year's bauma was the honking of all machines on the premises. Around 580,000 visitors from 200 countries attended from April 11th to 17th at the fairgrounds in Munich. This represents an increase of more than nine percent. The top ten visitor nations after Germany were Austria, Switzerland, Italy, France, the Netherlands, Great Britain, Sweden, the Russian Federation, Poland and the Czech Republic. Altogether 3,423 exhibitors - 1,263 national and 2,160 international companies - from 58
